Gentlemen:

LICENSE 5403 (APPLICATION 14381) AND STATEMENTS 2839 AND 2840 ELKHORN
SLOUGH AND SACRAMENTO RIVER IN YOLO COUNTY

This is to acknowledge receipt of your report of water development and use received on March 4, 1999. Thank you for your cooperation. We were also informed that there has been a change to the owner of record. Perry S. Cook was contacted on April 13, 1999; he stated that all of the water rights listed above were sold to the Laquens Clarksburg Vineyards. In addition to the appropriative water right covered by License 5403, our records show the ownership of water rights covered by two Statements of Water Diversion and Use (Statements) in the name of Perry S. Cook. These two Statements, Nos. 2839 and 2840, were filed to document water use under claim of riparian and/or pre-1914 appropriative water rights. Therefore, unless we hear to the contrary within 30 days, we will update the owner of record for License 5403, and Statements 2839 and 2840 as follows:

Laquens Clarksburg Vineyards
7485 Rush River Drive
Suite 710-284
Sacramento, CA 95831

We assume that you have copies of the water right license and the two statements. If not, copies are available upon request.

aIf I can be of further assistance, please write or call me at (916) 657-0442.

Sincerely,

ORIGINAL SIGNED BY
L. Kris Brown

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockponds Constructed Prior to 1969"
- "Appropriation of Water in California"
